

LIFTBOY 5

The vertical platform lift up to 1300mm

The Liftboy 5 lift is built to carry a wheelchair and passenger safely up and down levels with up to 1300mm difference in height. The lift has a modern design with glass inserts in the sidewalls and upper gate. As an option to the automatic folding ramp the Liftboy 5 can also be equipped with a platform gate.

Suitable for installations in public and commercial buildings, as well as private homes, this lift suits virtually any project requirements and aesthetic needs and is ready to serve with its reliable performance, ease of use and range of finish options.

LIFTBOY 5

Simple Installation

The simple construction allows a fast installation with minimal structural works necessary on site.

Comfort

Optimal drive comfort is ensured by a stable and smooth lifting movement.

Reliable

Designed for outdoor and indoor installation, 2 strong actuators in combination with a double scissor mechanism ensure a reliable and low-maintenance performance.

Simple access guaranteed by a **long access ramp** and a **minimal platform height** when folded

Gates can be opened **manually or automatically**

Protection covers and protection bars on all 4 sides provide for highest safety

Lift can be delivered in any desired **RAL colour**

Installation in a pit with door on the platform

Main advantages of the Liftboy 5

- Possible platform sizes are 900x1400mm and 1100x1400mm
- Emergency power supply with 24V batteries located on the platform
- A low platform height of only 120mm and a long access ramp allow installation without a pit
- External controls are radio controlled
- Optional with door on platform
- Optional with automatic door opener
- Optional with glass shaft
- Overload device, emergency lowering on the platform and safety bars for up and downward drive for maximum safety
- Diagnostic display for status and fault indication

Access ramp creates a barrier at 1,1m height above the platform in line with the side walls

Controls on the platform with stop and alarm button, as well as a Display for status and fault indication

Liftboy 5 - Technical Specification

Facts

Maximum lifting height	1300 mm
Platform widths (internal)	900 or 1110 mm
Platform length (internal)	1400 mm
Loading capacity	315 kg
Lifting speed	25 mm/sec
Drive system	24 V actuators with double scissor mechanism
Power supply	1 x 230V / 50-60Hz
Temperature range	+45°C down to -15°C
Minimal height of platform	120 mm
Power supply (for charger)	1 x 230V / 50-60Hz
